

it adequately, they feel there is a person needed. They also will be a central port of contact for all law enforcement agencies across the state, so it is probably important to have a person designated for this. And so I just wanted to call the body's attention to the fact that this will be an additional person at a cost of approximately \$30,000 a year on a full basis. And there also is additional work, some of these have to be done quarterly. There's...people move, if there's an updated address needed, this person would be that contact point. My feeling is that this population probably would move a little more than the average so it would be an ongoing program. There is a cost to this, I just wanted to call it to the attention of the body. Senator Abboud has indicated he will be dropping in the A bill; if he didn't, I would. I just wanted to call your attention to this, we're here, nearing the end of Select File on this bill. Thank you.

SENATOR COORDSEN: Thank you, Senator Wehrbein. Senator Chambers. Senator Chambers approaches.

SENATOR CHAMBERS: Mr. President, members of the Legislature, now that we're discussing the bill there are some specific areas of the bill that I have concerns about, too. And I'm looking at Section 12. And before I ask Senator Abboud a question, I want to give him a chance to look at what the section says and hear what I say, and then I'll ask him a question or two. Section 12 says the following, "Law enforcement officials, their employees and state officials shall be immune from liability for good faith conduct under the Sex Offender Registration Act." See, there are nonsworn employees of law enforcement officials in this state. We don't know what state officials are involved, so let me ask Senator Abboud a question or two. Senator Abboud, even if this kind of broad language exists in other statute, this...the way the language is now, if we're dealing with law enforcement officials and their employees, it would be nonsworn employees also, isn't that true, under this language, who would be given this immunity?

SENATOR ABOUD: Yes.

SENATOR CHAMBERS: And it doesn't say that the employees have to be engaged in law enforcement work.

SENATOR ABOUD: That's correct.
